Suppliers of:

Brix meters, P.H. meters, Conductivity meters, O.R.P, P.N.A meters, Penetrometers,
Infrared plant stress monitor, Dissolved oxygen, Humidity Temperature meter, CO2
meters... other meters, etc.

Sap presses, Sustainable Agriculture Books.
Microscopes and accessories.

All prices quoted in this price list are Australian dollars and are subject to change without notice. Quotes can be arranged for overseas buyers by contacting the supplier:

Meters

Product	CODE	PRICE EACH (1-11)
Ph Meter's		
Eco Tester 2, pH meter hand held pH 0 to 14 pH	ETpH2	\$128.00
ph Waterproof Manual 2 point calibration	P51	\$143.00
Sharp PH 55 Ph meter measures PH° Temperatures in one meter. W/P Auto Calibration	PH55	\$158.00
Bench top small portable PH meter & cable probe	SM101	\$205.00
ph Calibration Solution Kit. ph7 & ph4 (\$7.50 ea)		\$13.50
Horiba Twin Sap ph Meter	B211	\$458.00
Exstick ph Meter (works on few drops of plant sap)		\$180.00
Conductivity Meters:		
Conductivity Waterproof Manual calibration	C66	\$149.00
Conductivity Calibration Solution		\$7.50
Horiba Twin Sap Conductivity Meter	B173	\$555.00
Oakton Cup Conductivity Meter (Will operate on approx. 35 drops of plant sap or more includes calibration solution)	ECtest11 +	\$193.00
Cardy Sap Meters:		
Cardy N03 - C/141, Na – C/122 & K – C/131 Sap Meters		\$550.00
Case for Cardy Meters	Y091	\$55.00
Combination Meters, ph soil moisture & others available:		
Combination ph, Conductivity & TDS Meter (bench model)	SM 802	\$478.00
Ph & Soil Moisture Meter 3" Probe	DM15	\$130.00
Soil Moisture Meter 12" Probe. Suitable for pots & soft soils Gives indication Ph & soil moisture. Easy to use	PHSM	\$55.00
Hay Moisture & Temperature Probe. Expanded range 8% - 44% moisture, 0 to 107deg C. Large LCD digits clearly visible day & night 50cm (20") probe. Accurate through normal range of stored Alfalfa, Timoty & Clover hay.	2188	\$598.00
ORP Meters:		
ORP Meter (Redox)	SM500	\$269.00
ORP Calibration Solution		\$13.50
PNA Meter & Calibration Solution	PNA- SOL	\$226.40
Brix Meters:		
Auto Temp Refractometer (Brix Meter) & A1 Sap Press Test Kit	0 – 32%	\$196.00
Auto Temp Refractometer (Brix Meter)	0 – 32%	\$178.00

Palm Size Digital Brix Meter 0-53%	GER	\$580.00
Digital Refractometer (Brix Meter) also available	0 – 32%	P.O.A
Hand Held Refractometer (Brix Meter)	28 – 62%	\$210.00
Brix Master – Use it to ensure that your grapes are picked at the Brix level you want. Your workers can monitor while picking. Cheap, simple, robust, easy to use.		\$48.00
Salinity Refractometer	0 – 28%	\$210.00
Hydraulic Plant Sap Press & Extractor for hard to press leaf e.g.: Olive, Macadamia, Cherry Leaf etc. Or anywhere you need Sap Quantity	HSAP	\$398.00
Hand Press for Plant Sap Testing	A1	\$22.00
Infra-Red Sensors:		
Mini Infra-red Sensors for reading plant stress * Other models available	MT6	\$252.00
Infra Red & Contact Thermometer: Will do min/max differences. Can be used with Compost Temp. Probe instead of having second meter.	561	\$380.00
Thermometers & Temperature Probes & Diskloggers:		
Food Safety Dual Thermometer. Infra Red & Contact Probe all in one handy unit slim neat easy to use & carry in pocket Range infra red -50° 250° Probe - 50° to 350° can scan many reading at once	TCT303	\$190.00
Thermometer 4 inch Probe (no cable)	TH310	\$87.00
Thermometer 1 meter cable 6 inch probe	TH300	\$99.00
Thermometer 1 meter cable High temperature 6 inch probe	TH500	\$130.00
Minimum Maximum Wall Thermometer	LT	\$24.50
Wall Model Temperature Humidity Meter	AZHT02	\$86.00
Long Temperature Probes for Compost etc (T Bar handle complete with meter). Any length made to order POA on length's other than 4 feet	4ft	\$499.00
Data Logging Meter for above	C300-DLM	\$557.00
18" inch Probes ideal for hay (T Bar handle complete with meter).	18"	\$424.00
Riotemp Compost Dial Thermometers – 4ft model		\$675.00
Riotemp Compost Dial Thermometers – 3ft model		\$624.00
Humidity Temperature Meter with probe and lead. Can also be used with data loggers, comes in a case.	CE 310	\$345.00
Digital Readout Logger Disk Log Temperature/RH Logging made easy reads- 40 to 85°C accuracy ±1°C stores 2048 Readings Unique ID number logger. Complete 1	DISL	\$249.00
	EC	\$277.00

disk & PC software		
Light Meters:		
Lux Light Meter. 3 ranges in 1 meter. 0 - 1, 999 lux, 2, 000 to 19 999 lux, 20 000 - 50 000 lux.	LUX	\$169.00
Pasture Measurement Meter		
Filips Folding Plate Pasture Meter ideal for feed budgeting when Rotational Grazing, measures the average height of the pasture allowing for density. A fast useful tool no need to muck around cutting and weighing	FPM	\$439.00
Digital models of the above also available does all the calculating for you	FPMD	\$846.00

Penetrometers Soil & Fruit Model's:		
Penetrometers Soil Compaction Testing 1 – 1400psi		\$368.00
Fruit Penetrometers and Accessories 4Models: 0-1Kg (0-2.2 lb) Strawberries etc. 0-5Kg (0-12lb) Soft Fruit 0-13Kg (0-29lb) Apples, Pears, Peaches, etc 0-20Kg (0-44lb) Avocado's	FPA 53207 53203 53200 53201	\$316.00
Digital Fruit Penetrometer		POA

Fruit & Vegetable Measuring Devices.

Citrus Produce Callipers 0 – 150mm, 0 – 6" A quick reference for in the Field or pack house	CPC	\$74.00
Universal Fruit Calliper Chromed. Check the growth rate of your fruit. Measures fruit size from 25 to 95mm	UFC	\$153.00
Fruit sizing rings. 13 sizes Aluminium pocket calliper from 30 to 90 mm with 5mm steps.	53302	\$99.00
Fruit sizing rings. 9 sizes Aluminium pocket calliper 50 to 90 mm with 5mm steps	53313	\$95.00
Peach calliper. 6 sizes: 16/17.5/19/21/23/25 Aluminium.	53308	\$92.00
Potato calliper. 11 squared sizes 30 to 50 mm in 5mm steps aluminium	53301	\$180.00
Cherry calliper. 6 sizes 20 to 30mm in 2mm steps	53319	\$9.00
Banana calliper. From 7/8" to 2" in 1/32" steps	53328	\$210.00
Plastic Universal calliper. 20 to 100mm and 4/5" to 4"	53321	\$140.00
Potato Hydrometer. Bulk average type potato. Available in 3 models. Standard Type 14 – 23% Dry matter 18 -27 % Dry matter	D4500 D4501 D4502	POA POA POA
Carrot sizing rings. 8 sizes from 15 to 50mm in 5mm steps. In stainless steel.	CSR	\$85.00

Dissolved Oxygen, Chlorine & CO2 Meter's etc.

Dissolved Oxygen Meter Complete With CarryCase.	SM600 DO	\$589.00
Spare Membrane for SM600	MDO	\$20.00
Hack Single Input Digital DO Meter (meter only)	HQ3OD	\$1397.00
3 Meter Cable & Probe: for previous meter. Probe works on luminescent sensor no membranes to change. Less maintenance & calibration	LDO101-03	\$1130.00
5 Meter Cable & Probe: also for previous meter. Resist breakage if dropped	LDO101-05	\$1820.60
Hack Multiple input Multiple Parameter DO Meter. Can add other probes to meter. Use either of above probes. Other probes available are ph & conductivity.	HQ4OD	\$1820.60
Chlorine Meter Martini Free and total Chlorine	MI 404	\$320.00
CO2 Meter & Probes For Compost etc. Complete With Long Stainless Steel Probe. Simple to use.		\$950.00
Gas Pump & Detector Tubes for other gases available, easy to use		P.O.A.
Wind Meters:		
Kestrel Wind Meter, wind only	K1000	\$180.00
Kestrel Pocket Weather Station – Wind Speed, temperature, dew point etc. Ideal for monitoring Weather before spraying, fire fighting etc. Many uses in one Meter	K3000	\$335.00
Kestrel 3500 Delta T. Specifically for determining acceptable spray conditions in the agricultural industry, does the calculations for you.	Delta T	\$430.00
Kestrel 4500 Pocket Weather Tracker. Includes built in digital compass. True North & magnetic North. Calculates crosswind, head/tail wind etc.	K4500	\$640.00
Extend the functionality of your Kestrel meter with a portable vane mount. Total weight 227gms. Fits in pouch 5 x 15.25 cm's. Pair the 4500 with the Kestrel vane mount & have a data logging station set up in seconds, rotates in slight breeze.	0791	\$130.00
Portable tripod for above.	0807	\$62.00
Compasses:		
Ranger 3 Compass		\$45.00
Soil Stripper Solution 125ml		\$8.75
Soil Samplers:		
Soil Samplers Stainless Steel (660 mm) 26 inch.	ST	\$69.00
Soil Sampler Stainless Steel Cut Out Section (600 mm) 26 inch.	COS	\$74.00
Extra long Soil Samplers. 1 meter 39" with cut out section.		\$78.00
Larger Diameter Heavy Duty Soil Samplers made	LDSS	POA

to order 1 ¼", 1 1/2", 1 ¾ or 2"		
Water Infiltration Tubes 4" Dia 12" Long great for checking how fast your soil absorbs water and to check soil improvement	WIFT	\$140.00
Paramagnetism: Soil Paramagnetism Testing Service Also available.	One Test Two Plus	\$11.00 \$5.50ea
Solvita Compost CO2 & Ammonia Kits: Kit contains 6 x CO2 jars, 6 x ammonia jars and 12 test strips. The simple way to test your soil for CO2 & estimated approx nitrogen. Please note jars in test kit only last for 4 tests each and must be replaced.	S2361	\$168.00
Solvita Soil CO2 Refill Kit for above	S2362	\$128.00
Solvita Compost CO2 Kit Kit contains 6 jars of 12 test strips – 6 Ammonia & 6 Co2. Gives a result in 4 hrs. Simple to use please note jars in test kit only last for 4 tests each & must be replaced.	S2261	\$190.00
Solvita Compost CO2 Refill Kit for above		\$148.00
Solvita Garden Care Kit. Contains 3 tests for compost and 3 tests for soil and instructions.	SGK	\$51.50
Sulphide Test Kit. For compost. Kit contains enough strips for approx 80 tests, solution for 20 tests, 50ml measuring cup, spoon & beaker. Please note the SOLUTION IS ACIDIC & has to travel under the dangerous goods act.	STK	\$89.50
* NOTE: For best performance Solvita kits should be kept in cool cupboard test strips can be kept in fridge this prolongs life of strips.	N/A	N/A
NPK Test Kit: Test your soil for NPK on the spot enough for 25 tests	NPK	\$98.00

Meter Kits in Carry Case Combination

Kit 1: Example

Brix Meter, pH Meter, EC Meter, Thermometer 4 ½" probe, Mini Temperature Infra-Red Sensor for Plant Stress, A1 Sap Press for Plant Sap, Pad and Pen, Non Toxic Farming Handbook by Phillip Wheeler & Ronald Ward.

Note: Kits can be varied to suit individual requirements.

Terms: Cheque, COD, Cash with Order, Credit Card (Mastercard or Visa).

Microscopes

All Microscopes Listed Represent Excellent Value and Quality For Money:

BM200 Series Compound Microscopes:

The B200 Series Microscopes are available in Monocular, Binocular and Trinocular. A quality stand with co-axial Course and fine focus. Dual layer ball bearing, mechanical stage with co-axial controls. Abbe condenser 1.25 NA with iris diaphragm, on rack and pinion. Illumination is variable LED. With battery pack and plug transformer.

MODEL	DESCRIPTION	PRICE EACH
B200 – M	Monocular 360 deg, rotatable, with dual layer mechanical stage and WF10x eyepiece. Achromat objectives 4x,10x, 40x, 100x (oil) illumination LED	\$469.00
B200-M(2)	Monocular 360 deg, rotatable, with dual layer mechanical stage and WF10x eyepiece. Achromat objectives 4x, 10x, 40x, illumination LED	\$428.00
B200 – B	Binocular 360 deg, rotatable, with dual layer mechanical stage and WF10x eyepieces. Achromat objectives 4x, 10x, 40x, 100x (oil) illumination LED	\$555.00
B200 – T	As above with Trinocular (photo tube) 50/50 with LED illumination NOTE: 40 and 100x objectives are sprung loaded	\$659.00
TS-TCAM-1.3	Tuscen Camera 1.3 MP & Software for above	\$389.00
TS-TCAM-3.0	Tuscen Camera 3.0 & Software for above	\$545.00
TS-TCAM-5.0	Tuscen Camera 5.0 & Software for above	\$618.00

B200T – TCA series

B200T Trinocular Microscope with Achromat Objectives.

Trinocular Head inclined at 30 deg Beam splitter 50/50

Eyepieces WF10x(18)

Achromat Objectives A4x, A10x, A40x, A100x(oil)

Nosepiece reversed 4 positions.

Co-Axial course and fine focusing knobs

Co-Axial Mechanical Stage with specimen holder

Condenser Abbe 1.25 with iris diaphragm with rack & pinion adjustment.

Illumination variable LED with Lithium battery (approx 8hrs)

Blue filter, built in with mains power pack charger.

This microscope camera system can be used in the field with laptop as LED illumination is powered by inbuilt battery and camera is powered by USB from laptop.

Microscope	Camera	Coupler	Prices incl GST
B200T-TCA1.3	TCA 1.3(1280x1024)	TCN0.5X C mount	\$898-00
B200T-TCA3.0	TCA 3.0(2048X1536)	TCN0.5X C mount	\$1,049.00
B200T-TCA5.0	TCA 5.0(2592X1944)	TCN0.5X C mount	\$1,140.00

Please Note: Purchased as a combined unit as above is more cost effective.

PRODUCT	CODE	PRICE EACH
Motic Stereomicroscopes – 45 degree inclined stereomicroscope. Eyepiece: WF 10 x (Paired) Turret Objective: 2x, 4x, (i.e. 20x & 40 x total magnification) Focusing: Course focusing with slip clutch system. Incident Illumination 12v 10w. Main Supply 240v.	ST-30R-L	\$385.00
Triocular Microscopes: The Pro 2000 Series are high quality microscopes with variable 6v 20w Halogen Illumination. Coaxial mechanical stage, reversed 5 position nose piece 1.25 Abbe Condenser. Many other features. Planachromat Lens: 4x, 10x, 40x & 100x oil immersion.	PRO2000T	\$1245.00
Digital Microscope. Look at this just what we have been waiting for, absolutely Portable Digital Microscope Scalable USB Microscope to combine work and fun. FEATURES: Adjustable Focus (10-60X, 230X), High Precision Lens, LED Illumination switchable and adjustable, instant snapshot and time lapse video recording. Includes Microscope, Stand and Application Software. SPECIFICATIONS: Effective Pixel 320x240, 640x480, 1280x1024, Resolution 1.3 Mega Pixels, Image 1/4 CMOS Sensor, Signal Interface USB 2.0, White Balance-Automatic, USB Line 2 Metres, Magnification 10-60X and 230X (≥17"LCD Display) NOTE: Can be taken into the field with laptop to photograph insects, leaf etc instantly to your laptop, comes with tripod.	M-M501-EM USB	\$199.00
Binocular Microscopes	PRO2000B	\$1097.00

Microscope Accessories

PRODUCT	CODE	PRICE EACH
Kit of Slides, Cover Slips, 4 Vials, 4 Pippetts & box of Lens Tissues	SCV	\$29.00
Polarizing Attachment: Rotatable pol and analyser		\$89.00
M-EWF10xR: WF 10x eyepiece with measuring reticule		\$60.00
Microscope slides (per 50)	M-7101-07	\$7.50
Cover Slips 22x22 for Microscope Slides	No.1	\$10.00
Lens Tissues for Slides etc.(200 / Box)	KW	\$7.50
Compost Tea Quality Light Microscope Method Book by Soil Foodweb Institute		\$138.00

Magnifying Lenses:

High quality pocket magnifier. Made in Germany. Square fold up style, stainless steel, 6x and other	GER	\$60.00
---	-----	---------

magnification's available. 22ml lens		
Magnifying Loupe 20 x (pocket style 21mm)	G1020	\$19.00
Magnifying Loupe 10 x (pocket style 21mm)	G1081	\$19.00
Dual Magnifying Loupe 10x & 20x (Pocket style 18mm & 12 mm)	G1021	\$24.00
Pocket Magnifier fold up square style 27ml	PMC 27	\$30.00
Small pocket Binoculars. 10 x 25 Light weight great to carry in your pocket or the glove box	PB	\$22.00

Cleaning & Cleaning Solution's etc:

Nalgene Laboratory Wash Bottle for Meter		\$16.00
Cleaning Solution for Cardy NO3 Meters 150 ml.	CSNO3	\$10.00
Cleaning Solution for ph & ORP meters	PH	\$13.00
Cleaning Solutions for Conductivity meters 100ml.		\$10.00

Data Logger Disks & Software Interface Package:

Ideal to monitor temperature in cartons during transit:

PRODUCT	CODE	PRICE EACH (1-11)
Kit 1 and logger disk		\$195.00
Extra logger disk		\$65.00

Water Energisers:

Water Energiser Vortex Flow Magnetic Energising System, Various sizes, helps soften and improve water	WEV	P.O.A.
---	-----	--------

Glass Specimen Vials:

Soda Glass Specimen Vials (75 x 15 per 100) plus Stoppers	GO50/25	\$120.00
Soda Glass Vials (can be bought in smaller lots)		P.O.A.
Glass Specimen Vials. Screw Top (45 x 14.75 per 100)		\$75.00
Glass Specimen Vials. Screw Top (32 x 11 per 100)	6011/300	\$70.00
Plastic Stands For Vials 75 x 15 holds 60		\$18.75

Miscellaneous Devices:

Field Energy Enhancement Device & Installation		P.O.A.
Veges Sound Unit To Improve Growth	VSU	P.O.A.
PCSM Paramagnetism meter	PCSM	P.O.A.

CD'S, Tapes & Video's Available

PRODUCT	PRICE EACH
Genetic Engineering by Ronnie Cummins (CD)	\$5.50
Soil and Animal Nutrition and Health by Dan Skow (CD)	\$5.50
Sprouting of Grain for Livestock by Jerry Brunneti (CD)	\$5.50
Industry & Government by Charles Walters (CD)	\$5.50
Microbes, Compost & Compost Teas (2 CD's) by Elaine Ingham	\$11.00
Nutrition (2 CD's) by Sally Fallon	\$11.00
Composting (2 CD's) by Edwin Blosser	\$11.00
Medical Things (1 X DVD) by Arden Anderson <i>(128 minute talk on link between soil health, medicine, and GMO's)</i>	\$20.00
3 Day Soils & Agronomy, 18 hour lab course. 6 DVD set, recorded Feb 7-9- 2006 at Havelock Nth. Dr Arden Anderson. Special reduced price as only 1 set left	NA
Soil Course (17 CD's) by Arden Anderson. <i>17 CD set comes in beautiful sturdy aluminium carry case, 3 day course in Biological Soil Management.</i>	\$400.00
Ehrenfried Pfeiffer. Himself. <i>A rare collection of tapes in Dr Pfeiffer's own voice, teaching timeless lessons of eco-farming/natural health.</i>	\$48.00
Cancer, Nutrition & Healing A Personal Odyssey by Jeremy Brunetti <i>(a message from a man who was told if he did not have chemotherapy for Lymphoma he would be dead in 6 months – 5 years later he is still alive)</i> available on DVD or Video	\$37.00
Can You Really Believe What Your Dr. Tells You? by Dr. Peter Baratosy	P.O.A
Radiance. Permaculture reclaiming our place in nature by David Holmgren <i>(On nutrition, health, .)</i>	P.O.A
"Melliodora" Hepburn permaculture gardens by David Holmgren <i>(A case study in cool climate permaculture 1985-2005)</i> Special price only 2 left	\$20.00
HISTORIC VIDEO: "The other side of the fence" All about the link with soil, animal & human health by professor William A Albrecht <i>(is preserved & presented for future generation's 1950 era film, introductory & closing remarks by Acres U.S.A. founder Charles Walters. A must watch video, also available in DVD)</i>	\$40.00
Holistic Veterinary Care (DVD) by Jerry Brunetti & Hubert J. Karreman VMD.	\$36.00
The Keys to Herd Health (DVD) by Jerry Brunetti, an excellent look at all aspects of Herd Health	\$36.00
Hands on Agronomy (DVD) workshop. Feeding and balancing your soil. By Neil Kinsey.	\$39.00
Pasture Cropping & No Kill Cropping (DVD) brought to you The Lake Cowral Foundation & The Advanced Cropping Company. <i>(This DVD features an introduction to pasture cropping and how you can improve the carbon in your soil by this method)</i>	\$22.00

Books Available

Agriculture & Viticulture

PRODUCT	PRICE EACH
Non Toxic Farming Handbook by Philip Wheeler & Ronald Ward <i>(a first read for beginners)</i>	\$48.00
Science in Agriculture by Arden Anderson <i>(both farmer and professional will benefit from this book)</i>	\$55.00
The Anatomy of Life & Energy by Arden Anderson <i>(learn to tap and use life-force energy)</i>	\$31.00
Real Medicine Real Health by Arden Anderson <i>(gives real options for people and health)</i>	\$44.00
Minerals for the Genetic Code. An exposition & analysis of the Dr Olbree Standard Genetic Periodic chart & Biological connection. By Charles Walters. <i>(A cutting edge book on chemical & biological aspects of minerals & subatomic particles in life)</i>	\$48.00
Mainline Farming for Century 21 by Dan Skows & Charles Walters <i>(practical advice)</i>	\$44.00
Eco-Farm by Charles Walters & C.J. Tenzau <i>(a book for everyone in eco-agriculture)</i>	\$50.00
Hands On Agronomy by Neil Kinsey <i>(first rate science brings organiculture & conventional farming together)</i>	\$48.00
Weed Control Without Poisons by Charles Walters <i>(you'll never think the same again)</i>	\$48.00
Weeds and Why they Grow by Jan McCaman <i>(very enlightening)</i>	\$65.00
The Biological Farmer by Gary Zimmer <i>(knows how to make responsible farming work)</i>	\$48.00
A Biodynamic Farm by Hugh Lovell <i>(one of the best biodynamic books available)</i>	\$40.00
Advanced Biodynamic Agriculture, a short course by Hugh Lovell	\$18.00
The Carbon Catcher Programme <i>(using the earth to take carbon from the sky)</i>	\$22.00
The Carbon Cycle by Leonard Ridzon & Charles Walters <i>(carbon in the soil)</i>	\$38.00
Grass by Charles Walters <i>(Exploring the miracle of Grass Pastures and Grassland Farming and what is the most important plant in the world)</i>	\$42.00
Albrecht Papers Volume 1 by William A Albrecht, edited by Charles Walters <i>(This collection should be in everyone's library)</i>	\$55.00
Albrecht Papers Volume 2	"
Albrecht Papers Volume 3	"
Albrecht Papers Volume 4	"
Nutrition Rules, Guidelines from Master Consultants, 22 inspiring interviews which could change the way you farm. By Graham Sait.	\$35.00
An Agricultural Testament by Sir Albert Howard <i>(father of the organic movement. Covers all aspects of soil, crops, animals & soil health including cane etc.)</i>	\$49.00
Bread from Stone by Julius Hensel <i>(great book on rock dust)</i>	\$33.00

Enlivened Rock Powders by Harvey Lisle (<i>using rock dust as fertiliser</i>)	\$36.00
Nourishment Home Grown by Dr A. F. Beddoe (<i>Dr Carey Ream's secrets for growing the most nutritious & life giving food in your own home garden</i>)	\$58.00
The Intelligent Farmer by Dr. A. F. Beddoe (<i>An introduction to what Dr Carey Reams Biologic Ionization principles are all about</i>)	\$15.00
Agriculture In Transition by Donald Schriefer	\$48.00
Biological Ionization as applied to Farming & Soil Management by Dr. A F Beddoe (<i>Principles and Techniques of Dr Carey Reams</i>)	\$155.00
From The Soil Up by Donald Schriefer (<i>helps you design your own fertility programme</i>)	\$48.00
The Farmer Wants To Know About PH & Energy by Dr. Dan Skow	\$19.00
How to Grow Great Alfalfa by Dr. Harold Willis <i>Interesting reading</i>	\$19.00
How to Grow Great Corn by Dr. Harold Willis <i>Interesting reading</i>	\$19.00
How to grow great Soya Beans by Dr Harold Willis	\$19.00
Soil, Grass and Cancer by Andrea Voisin <i>The link between human and animal health – mineral balance</i>	\$50.00
How Soils Work by Paul Syltie PHD. <i>A study into the God – Plane of Soils and Crops. An excellent book for anyone interested in how soil or plants, or mineral and biology work in soil.</i>	\$50.00
Agriculture The Only Right Approach by P.H. Ainsworth. <i>Science says there is a difference. Great information including facts and figures</i>	\$50.00
Foundations of Natural Farming by Harold Willis PHD. <i>Understanding core concepts of ecological agriculture.</i>	\$50.00
Stone Age Farming by Alanna Moore <i>Interesting read</i>	\$32.00
Healthy Crops – A new Agricultural Revolution by Francis Chaboussou <i>A reminder that there is alternatives to the chemical treadmill</i>	\$40.00
Farmers of Forty Centuries by F. H. King <i>A timeless & invaluable resource for gardeners, small scale farmers, students of organic techniques & ecology</i>	\$44.00
You Can Farm by Joel Salatin <i>The entrepreneurs guide to start and succeed in a farming enterprise</i>	\$75.00
Ag Meters and their Applications by David von Pein <i>Basic info on the meter used</i>	\$13.00
Rate Chart for Hand Spray <i>Good for use with Brix meter for foliar work, etc</i>	\$9.00
Fertility Farming by Newman Turner <i>Explores an approach to minimal use of the plow chemicals fertilisers and pesticides & emphasises soil fertility via crop rotation composting, cover cropping and manure application</i>	\$47.00
Fertility Pastures by Newman Turner <i>Details his methods of intensive pasture based production he developed a system of herbal ley mixtures & chapters on year round grazing cultivating seedling & management etc including poultry and pigs as well as cattle</i>	\$49.00
The Grape Grower by Lon Rombough <i>A guide to organic viticulture covers all aspects of starting and growing grapes easy reading</i>	\$88.00
Back From the Brink by Peter Andrews <i>A book that should be read by everyone, man, woman and child. Earn about how to fix our environmental problems for Australia and much of the World. A must read book.</i>	\$35.00
Beyond The Brink by Peter Andrews	\$35.00

<i>The sequel to Back from the Brink for those who genuinely care and want to do something about our environment. Our Australian landscape is dying – it can be saved simply. A must read book.</i>	
Ask The Plant by Charles Walters <i>Esper K.Chandler. Based on the agronomy of Esper K.Chandler offers farmers and growers a better way by asking and observing what the plant and the soil really needs, with a mass of info every farmer and agronomist be they organic or conventional should read it.</i>	\$38.00
Visual Soil Assessment [Field Guide] by Graham Sheperd A practical field guide to doing visual soil assessment with complete instructions on how to do it. While this book was is set in New Zealand it can be applied to Australian soils. A quick & easy way for any layman or professional to evaluate soil anywhere. Has excellent colour photographs & details.	\$95.00
The Ideal Soil by Michael Astera In this book Michael brings together Reams & Albrect methods.	\$36.00

Organic

Organic Gardener Handbook of Natural Insect & Disease Control	\$47.00
Test Your Soil With Plants by John Beeby <i>(discover how to tell what fertilisers to use to optimise your garden health)</i>	\$57.00
Organic Small Farming by Hugh Corley. <i>The exciting story of scientifically controlled methods used on Pucketty Farm.</i>	\$37.00
Agriculture The Only Right Approach by P.H. Hainsworth. <i>Science says there is a difference. A book worth reading.</i>	\$59.00
The Organic Method Primer Update Special Edition by Bargyla & Gylver Rateaver. <i>A practical explanation for the beginner and the experienced.</i>	\$150.00
Secrets of the Soil by Peter Tompkins & Christopher Bird. <i>New solutions for restoring our planet.</i>	\$38.00
Wine from the Sky to Earth by Nicolas Jolly <i>(growing & appreciating bio dynamic wine. All wine growers should read this book)</i>	\$41.00
The Secret Life of Plants by Peter Tompkins & Christopher Bird <i>Learns you about plants like you have never thought of them before, a mind blowing book.</i>	\$42.00
Building Soils for Better Crops by Fred Magdoff and Harold van Es.	\$58.00
Managing Cover Crops Profitably. <i>Using cover crops to smother weeds, deter pests, and slow erosion. Good information and worth reading.</i>	\$50.00
Foundations of Natural Farming by Harold Willis PHD. <i>Understanding core concepts of ecological agriculture.</i>	\$49.00
Ancient Agriculture Roots and Application at Sustainable Farming by Gabriel Alonso de Herrera. <i>Old world techniques for New World Gardeners and farmers who are striving for agricultural stability.</i>	\$70.00
Roots Demystified by Robert Kowrik. <i>Offers simple solutions for growing healthy roots and thereby healthier plants. Excellent drawings etc.</i>	\$68.00
The New Organic Grower By Eliot Coleman. <i>A masters manual of tools & techniques for the home & market gardener</i>	\$78.00
Five Acres And Independence. <i>Great book for anyone who dreams at getting back to soil. Methods for all applications of all aspects of a small farm</i>	\$65.00

Organic Farming (Everything you need to Know) by Peter V Fossel <i>Loaded with fantastic colour pictures covers vegetables crops plants, converting from conventional, alternatives to pesticides, marketing strategies etc.</i>	\$38.00

Paramagnetism of Soil, Water & Insect Frequency

Tuning Into Nature by Phillip Callahan (Frequencies that insects, etc. Work on)	\$42.00
Paramagnetism by Phillip Callahan (<i>frequencies in the soil – the secret force of growth</i>)	\$33.00
Exploring the Spectrum by Phillip Callahan (<i>learning how nature resonates to energy</i>)	\$34.00
A Walk In The Sun by Phillip Callahan	\$27.00
Ancient Mysteries Modern Vision by Phillip Callahan (<i>Interesting reading about miracles of nature</i>)	\$34.00
My Search for Traces of God by Phillip Callahan (<i>Discover God's handy work in nature and miracle</i> s)	\$34.00
Natures Silent Music by Phillip Callahan (<i>Learn the secrets of the Irish Towers, Tree Roots & Paramagnetism, Insects etc.</i>)	\$37.00
Living Energies by Callum Coats (<i>Great if you want to learn about energies in nature etc.</i>)	\$55.00
The Water Wizard by Callum Coats (<i>The book to read if you want to learn what happens with water flow and hydrology and really understand how it works. You will never look at a creek or river etc and think the same again</i>)	\$49.00

Sea Minerals, Kelp & Seaweed

Sea Energy Agriculture by Maynard Murray MD (<i>crucial importance of hundreds of trace elements</i>)	\$36.00
Seaweed in Agriculture & Horticulture by W.A. Stephens (<i>a guide to uses, "the properties of seaweed "</i>)	\$46.00
Fertility from the Ocean Deep by Charles Walters (<i>examines the use of sea solids and many other aspects of disease in animals and humans and trace elements</i>)	\$45.00
Food Power From The Sea by Lee Fryer & Dick Simmons (<i>Guide to the use of seaweed & fish based prdts. & organic waste to replace diminishing gas & oil resources</i>).	\$57.00
Sea Weed & Plant Growth by T.L. Senn P.H.D (<i>Covers all aspects of Sea Weed and its effect on plant growth etc, great information</i>)	\$42.00

Garden & Human Health

The Calcium Kit by Dr A. F. Beddoe. The secret key to your calcium needs. (utilised the biological ionization principles discovered by Dr Carey Reams. Kit consists of instruction book and litmus paper)	\$49.00
Profiles of Living by Dr A. F. Beddoe (<i>This letter covers the meaning of the Biologic Ionisation Principles</i>)	\$21.50
Choose Life or Death by Carey A Reams with Cliff Dudley (<i>a fascinating read</i>)	\$39.00
Nutrition & Physical Degeneration by Weston Price	\$73.00
Comfrey Report by Lawrence D. Hills (<i>an excellent book on comfrey and</i>	\$26.50

<i>growing it)</i>	
Chelation Can Cure by E.W. McDonagh	\$42.00
Normal Blood Test Scores Aren't Good Enough By Ellie Cullen	\$42.00
Sea Salts Hidden Power by Jacques de Langre PhD*	\$25.00
How to Grow Fresh Air <i>(improve oxygen in your home with plants)</i>	\$52.00
Root Cellaring	\$60.00
Exitotoxins by Russel L Baylock	\$65.00
Cancer Cause & Cure by Percy Weston	\$27.00
Vaccination It's Your Informed Choice by Dr. Peter Baratosy	\$23.00
Your Body's Many Cries for Water by F Batmangfields, MD. <i>(you are not sick, you are thirsty, don't cure thirst with medications)</i>	\$50.00
How can I use herbs in my daily life by Isabel Shepard <i>(over 500 herbs, spices & edible plants. An Australian practical guide to to growing, with culinary medicinal uses.)</i>	\$39.00
How can I grow & use Sprouts as living food by Isabel Shepard <i>(Covering 100 kinds of sprouting seed, the best methods of sprouting nutritional & medicinal benefits. How to use sprouts in your daily life, with practical & simple recipes)</i>	\$35.00
Keeping The Harvest by Nancy Chioffi & Gretchen Mead <i>(discover the home grown goodness of putting up your own fruits, vegetables, herbs, etc.)</i>	\$49.00
Roses Love Garlic by Louise Riotte. <i>Companion planting and other secrets of flowers.</i>	\$45.00
Carrots Love Tomatoes by Louise Riotte	\$40.00
World Record Tomatoes*	\$40.00
Pasture Perfect by Jo Robinson <i>(why eating grass fed meat & eggs is better)</i>	\$44.00
Holy Cows & Hog Haven by Joel Salatin <i>(The food buyers guide to farm friendly food.)</i>	\$40.00
Water, the Ultimate Cure	\$24.00
Hydrogen Peroxide Medical Miracle	\$44.00
Love Medicine & Miracles by Bernie S. Siegel MD. <i>Everyone who faces a life threatening disease or situation should read this book.</i>	\$28.00
The Real Cause of Heart Disease is not Cholesterol by Paul A Stitt <i>can be averted not with drugs, not with surgery – with knowledge</i>	\$40.00
A More Excellent Way, Be In Health Spiritual Roots of Disease, Pathways to Wholeness by Henery W. Right. <i>Read to discover why mankind has disease, blocks to healing, disease prevention, many diseases discussed and lots more, the author has spent many years studying disease from a spiritual perspective.</i>	\$50.00
Be In Health <i>a study guide to accompany the book, A More Excellent Way</i> by Henery W. Right	\$35.00

Composting Worms & Biology

Compost Tea Brewing Manual by Elaine Ingham <i>balance (958 pages).</i>	\$55.00
Secrets To Great Soil by Elizabeth P Stell <i>(a growers guide to composting, mulching & creating healthy soil for your garden & lawn)</i>	\$59.00
Handbook of Microbial Bio Fertilisers, by M. K. Rai <i>How to use bacteria and fungi as an alternative to chemical fertilisers.</i>	\$160.00
Fletcher Simms Compost by Charles Walters <i>(interesting reading)</i>	\$34.00
Rodale Book Of Composting <i>(excellent information for the farmer or gardener)</i>	\$52.00
Secret Life Of Composting by Malcolm Beck	\$39.00
Lessons in Nature by Malcolm Beck. <i>(50 years of organic advice from Southwest's foremost composter, gardner & farmer)</i>	\$40.00
Teaming with microbes. A gardeners guide to the Soil Food Web by Jeff Lowenfels & Wayne Lewis. <i>Forward by Elaine Ingham. Hard cover</i>	\$68.00
Soil Biology Primer <i>(great to learn about life in the soil, in colour, a must have)</i>	\$39.00
Nature Farming & Microbial Application by Hui-Lian Xu, James T Parr, Hiroshi Uremura	\$110.00
Worms Eat My Garbage by Mary Appleton	\$39.00
On Farm Composting Handbook by N.R.A.E.S. <i>(gives lots of facts, figures & info on methods for different types of composting)</i>	\$71.00
Harnessing The Earth Worm by Thomas J Barrett <i>(Letting earth worms work for you to build & condition your soil for better plants & richer crops)</i>	\$48.00
Recycle With Earth Worms by Shelley C Grossman & Toby Weitzel <i>(The red wiggler connection, a great book for for anyone interested in worm composting etc.)</i>	\$39.00
Farmers Earth Worm Handbook. <i>Everything you always wanted to know about managing earth worms in your garden or farm.</i>	\$46.00
Raising Earth Worms for Profit by Earl B. Shields. <i>Earth worms for soil improvement, earth worms for breeding stock & earth worms for bait.</i>	\$34.00
Biological Transmutations by Louis Kervran	\$52.00
Colour Handbook of Biological Control in Plant Protection by Neil Helyer, Kevin Brown & Nigel D Cattlin <i>(designed to help the reader recognise and anticipate specific problems and then resolve them, using natural enemies of pests, insects, mites and disease. Full of fantastic colour photos throughout the book)</i>	\$85.00
Manage Insects On Your Farm by Miguel A Altieri & Clara I Nicholls with Marlene A Fritz.	\$48.00
Field Guide To On Farm Composting by NRAES-114. <i>Great information for people starting out and the professional, also a great companion to on farm composting</i>	\$40.00
Earth Plant Compost by William F Brinton <i>A great little book examines composting in field and garden, very useful for the beginner.</i>	\$39.00
Organic Soil Conditioning by William R Jackson Phd. <i>Humic, fabric and microbial balance through documented research from universities around the world, explore natures natural</i>	\$340.00
Life In the Soil by James B. Wardi <i>An excellent book to learn about life in and on the soil. Covers everything from simple</i>	\$48.00

<i>algae and all other biology right through to small mammals. For the farmer and gardener. Many pictures throughout the book.</i>	
Mycorrhizae In Crop Production Edited by Chantal Hamel PHD and Christian Plenchette PHD <i>This is a comprehensive guide to the use of arbuscular mycorrhizal fungi in sustainable cropping systems and the impact it has macro & micro nutrients and interaction between AMF and plant pathogenesis, draws on a lot of work in Latin America & India</i>	\$95.00
Mycelium Running by Paul Stamets, subtitled How Mushrooms Can Help Save The World <i>Growing mushrooms might be the best thing we could do to help save our polluted world, enzymes and acids in the fine filaments break down many pollutants, plant & animal debris</i>	\$67.00

Animals & Animal Health

Natural Farming by Pat Coleby (A practical guide to natural farming an Australian book with lots of info, excellent, covers all aspects.)	\$37.00
Natural Horse Care by Pat Coleby	\$38.00
Natural Cattle Care by Pat Coleby	\$38.00
Natural Goat Care by Pat Coleby	\$38.00
Natural Sheep Care by Pat Colby	\$39.00
Organic Livestock Handbook. Anne Macey, Editor <i>A practical guide book assembled from the experience of livestock producers across north America explains principles of organic livestock husbandry.</i>	\$70.00
